MSPB INVITES INPUT FOR STRATEGIC PLANNING

The Merit Systems Protection Board (MSPB) seeks input from stakeholders to inform its strategic planning process and preparation of its strategic plan for FY 2022-2026.¹

It has been a decade since we last engaged in comprehensive long-term planning. Certainly, a lot has changed since that time. Several laws have passed affecting Federal management and employee appeals. And, MSPB has experienced the longest periods in its history without a quorum and without any presidentially appointed, Senate-confirmed Board members. To properly prepare for new Board members, and because all agencies are required to revise their strategic plans at this time, MSPB is planning for the future to ensure we are able to effectively and efficiently accomplish our work, build on our success, take advantage of opportunities, and prepare for any challenges we will face.

MSPB's stakeholders have important perspectives about the agency and its mission, objectives, goals, and operations. We hope you will consider providing your input as we plan for the future.

MSPB is collecting information through an online tool that contains a simple text box within which you can enter your input to help us plan. Responses are voluntary and confidential. Only aggregated results will be provided to agency leaders. Please provide your input by **COB Wednesday, June 30, 2021**.

A link to the tool is available [here](#), and can be found on the MSPB website at <https://www.mspb.gov>. If you have problems with the tool or questions about our strategic planning process, please contact us at MSPBStrategicPlan@mspb.gov.

Thank you in advance for providing your perspective!

¹ MSPB is conducting strategic planning in accordance with the Government Performance and Results Act Modernization Act of 2010 (Pub. L. 111-352), and guidance from the Office of Management and Budget.

The U.S. Merit Systems Protection Board (MSPB) is an independent, quasi-judicial agency whose mission is to protect the Merit System Principles and promote an effective Federal workforce free of Prohibited Personnel Practices.
